

**CLAIM**

Having thus described and illustrated my new variety of nectarine tree, what I claim is new and desire to secure by Plant Letters Patent is:

1. A new distinct variety of nectarine as substantially shown and described and which is characterized principally as to novelty by producing an attractively colored clingstone nectarine which is mature for harvesting and shipment approximately August 20-24<sup>th</sup> under the ecological conditions prevailing in the San Joaquin Valley of central California.
